

Login

Logging on

Manual

Enter your username and password.

If you have an administrator profile, you can edit other users' information (See User management).

Contact your account manager or Drivania's 24/7 support for information on who in your team has an active administrator profile or if you need assistance with your username and password.

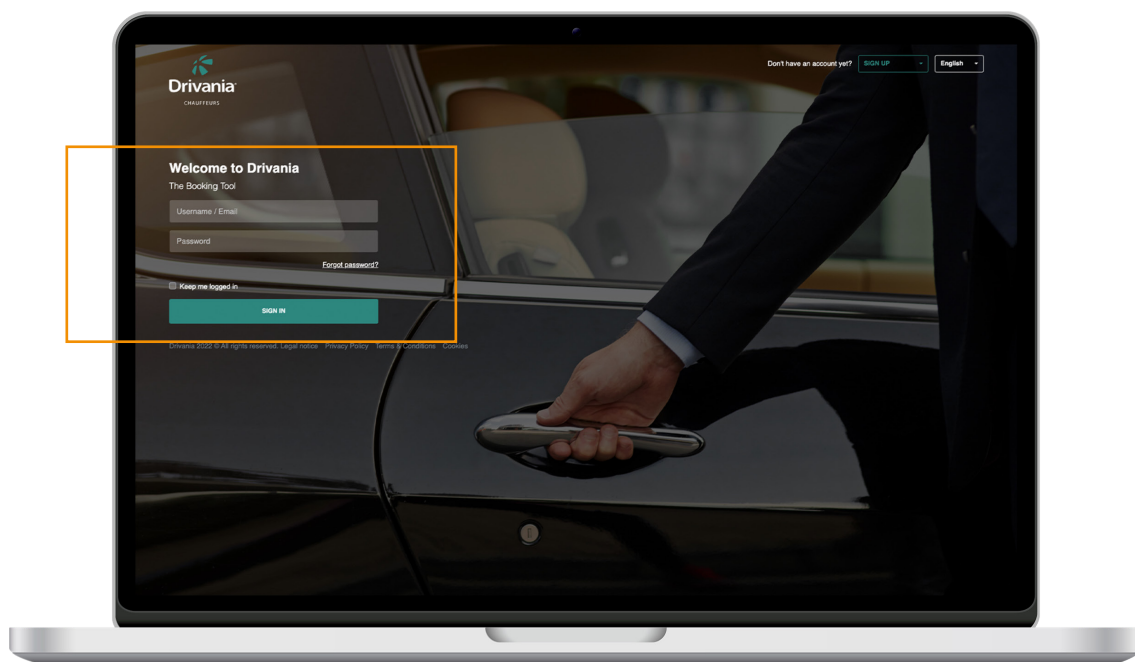

Autologin - Intranet

If you have direct access from your intranet, it will not be necessary to enter your username and password.

Autologin access via intranet does not allow administrator profiles.

Since this is a general login, you will be asked to identify yourself in the last step of the booking process.

If your intranet currently does not have direct access to Drivania and you would like to set up this feature, please refer to the Intranet integration section.
